Water bodies in campus are not maintained properly. Due to which there have been complains of dead fish being found in lakes. Moreover they serve as a breeding ground for mosquitoes which needs to be addressed.

Proposal: regular cleaning of lakes

Solution and plan of action: lakes to be cleaned every month. The stagnant lakes they'll be either filled up or cleaned.

Vending machines and spectacle shop

Solution and plan of action: follow up of already ongoing task of setting up of tea and coffee vending machines in hostels. Tender to be given to canteen managers and it will be their duty to ensure that the machines are regularly and to get them repaired in case they break down. Follow up of establishment of spectacle shop in campus.

Undergraduate Research

Domain : Academic section

Majority of the research undertaken in the institute is by the post graduate and PhD students. In order to instill an interest towards the same, among the Undergraduate diaspora, a greater set of incentives are required, over the existing ones that pertain to skill and resume development

Proposal: Increase undergraduate research.

Solution and plan of action : Formation of a committee (or extension of the mandate of a pre-existing one) to evaluate entries and submissions made specifically by Undergraduates, eventually awarding the deserving candidates. This would not only provide for a much needed incentive, but also would act as an apex body to regulate and process requests and subsequent approvals concerning projects.
