

STUDENTS' GYMKHANA ELECTIONS

Year 2017-18

Indian Institute of Technology, Guwahati

File Ref: IITG/SAC/GYM15/Elections/Agenda/

Agendas and Declaration Form

Post contesting for: **UG senator**

Name: **Aman Anand**

Tagline (Punch line): Do it with passion or not at all .

Agendas:

- 1. Campus Monthly Magazine:** Usually information about meeting/decisions taken in Gymkhana reach to campus junta through minutes in webmail. I think it is not much efficient method to convey the work done. Making available an effective Monthly magazine with collaboration of Literary club, which contains all the details of implementations of Gymkhana in that particular months and would be made more interesting by containing information about various events going on in campus like Manthan, Kriti, Spardha, Guest lectures, etc. It would be available along with newspaper at security desk of each hostel .Also feedback/suggestion form for students for what points they want to raise through senator and gymkhana would be available.
- 2. Monthly Room Cleaning:** Cleanliness and beauty of our overall campus would be much better when it starts from each students' room, thus monthly cleaning of each room once if the particular student wants & the budget problem would be accompanied by reducing cleaning of floors and washrooms on regular basis to 26 out of 30 days in a month.
- 3. Removal of stray animals from hostel premises which are potential for diseases .**
- 4. 1st Yearites-Seniors Interactive Session:** Often it is seen in first year students that they don't know much about importance of Cpi , personality development ,academic interns etc, so we can keep an interacting sessions between them and 3rd , 4th yearites . Thus they will come with wide range of ideas from different seniors unlike mentors/mentee meeting where they hear just one senior .Thus will help in creating better leaders in our campus and overall betterment of our institute by growing healthy relation between all undergraduates .
- 5. Hospitals(Issue Regarding Medical Records) :** Many students or faculty members facing problems regarding Medical record Book in case of emergency treatment. If I will get chance, I will try to make this system online instead of offline by just showing IITG ID card at reception of Hospital.

- 6 Proper Availability of Equipments for NSO/SA sessions** and portal to complain or give feedback in intranet for the same .
- 7 Hostel Walkway:** the pathway along hostel and even those linking other hostel should be repaired. The continuous degradation of these roads have resulted in many pits over it, causing a lots of trouble to the passersby.
- 8 Mess Feedback/Centralised cold storage System :** For filling feedback form for mess very less time is available at the end of month. This time should be increased .Centralised cold storage for vegetables which would be sent to each hostels thus the menu of each hostel would remain almost same stoping movement of students to another hostels for food and the in between commission which our caterer eats will be used in improving food quality .

Experiences (Credentials if any):

- **Core Team Member & Marketing Executive, Marketing and Corporate relation Team, Techniche 2017.**
- **Marketing Representative, Techniche 2016.**
- **City Representative Technothlon'16 for Purnia City.**
- **Event Co-ordinator in Guwahati Half Marathon-'16**
- **Participated in Kriti 2015-2016 in automobile section, in which got 3rd position.**
- **Participated in Kriti 2016-2017 in automobile section, made a bot with proper suspension system to sustain water at larger bumps at small dimension (20mm*30mm) secured overall 1st Position with a team of 6 members .**
