#### **Agendas:**

- The creation of online forum to discuss ongoing issues of our campus, in order to bring it to attention of gymkhana members. The proceedings and decisions could be posted regularly on the forum and be left open to discussions. Also keep online voting for major gymkhana decisions.
- Database management in hospitals. Past medical records are very important for doctors to treat a patient. Maintaining a proper database would help a lot in providing better healthcare and also ease the whole process of finding records.
- I would propose the formation of club which would enhance building the professor-researcher-student relationships. The club can hold activities around the year to develop inter-disciplinary research interests among UG students and also it would enhance UG-PG interactions. Initiatives under this club can be approved by the professors associated.
- I would propose formation of new club to help students prepare for their entrance exams (CAT ,GRE ,G-MAT, Civil Services).
- Student media body brings the institute's face to outer world. I would like to propose the formation of such media body which, through the means of online media and newspapers will definitely aid IITG become more recognizable both in national and global scale.
- Workspace where boys and girls together can work for their project or assignment with extended time restriction in New SAC ground floor.

- Install a store that sells juices in the food court. Since New SAC is the hub of all student activities in our campus, and most of the students spend their evenings there, it is constant problem that they do not have anything healthy to consume in the vicinity. Also a store which sells dairy products has to be installed.
- No-dues portal and Online application for transcripts.

**Experiences (Credentials if any):**

- Maintenance Secretary - Umiam Hostel.
- Branch Representative CSE.
- Core Team Udgam
- E-cell Executive
