STUDENTS' GYMKHANA ELECTIONS Year 2018-19

Indian Institute of Technology, Guwahati

Agendas and Declaration Form

Post contesting for: **UG Senator**

Name: **Kaila Harsha Vardhan Reddy**

Nick Name.: **Kaila**

Tagline (Punch line): Belief, simple but dangerous, Change, tempting yet impractical, change these notions and you conquer.

Agendas:

1) **Creating Awareness about the working of Student Gymkhana and increasing active participation from the student community in General Body Meetings.**

   Domain: Student Gymkhana and Hostel Management Committee

   Proposal: Collaboration of Student Gymkhana with HMC to bring in awareness about the functioning of Gymkhana.

   Possible Solution: Senators should bring to the notice of HMC the proper schedule of Senate Meetings. HMC taking lead to communicate the ideals of Gymkhana to the student community would be of paramount importance. This can be brought through constant collaboration of the Student Gymkhana with the Hostel Management Committee.

   Plan of Action: Sending a webmail 10 days prior to a senate meeting and allotting a senator for each hostel before the senate meeting. The notice must also be posted in Social Media (since most of the student community is active on social media). Each and every bonafide student of the campus has a right to voice their opinion over the issues pertaining in the campus. GBMs provide a common platform for students to raise their voice. With many issues being resolved (like the recent mess closure in the Siang hostel, with the boarders enthusiastically filling the mess feedback), with students raising their voice, it is high time now to bring this awareness among the student community.

2) **Collaboration with Student Academic Board to bring ample Foreign Exchange Opportunities to the Undergraduate Students**

Domain: Students Academic Board.

Proposal: Proper Collaboration with SAB, which would act as a bridge between IITG and the MoUs

Possible Solution: The availability of ample number of opportunities for the students to go abroad on an foreign exchange could prove to be fruitful in terms of research, the trait where generally most of the students lack behind.

Plan of Action: The SAB would act as an common body between the Students Gymkhana, the Academic Section and the MoUs. It should proactively take part in getting more and more MoUs signed. This increases the scope of opportunities, where we are currently lacking behind.

3) **Renovation and Proper Usage of Sport Facilities keeping in view the Inter IIT Sports meet which would be organized by IIT Guwahati, later this year.**

Domain: Sports Board, Student Gymkhana Council and Engineering Section.

Proposal: To restructure the sport facilities in the campus and ensure the grounds which aren't being used be renovated and used efficiently.

Possible Solution: With Inter IIT round the corner, it is high time to restructure the sport facilities and think about this renovation in an unit economics perspective.

Plan of Action: To collaborate with the Establishment Section and to renovate the Sport facilities present in the campus. Proper utilization of the grounds which aren't being used must be of paramount importance as this would bring effectiveness to the practice of the various Inter IIT Contingents.

4) **Incorporating Vehicle Tracking Technology into the Buses and Ambulances to reduce the various ambiguities associated with the Institute transport service.**

Domain: Establishment Section, Student Web Committee

Proposal: Adding GPS Technology into the institute transport system to monitor the proper functioning of these facilities.

Possible Solution: This action would be highly effective and would do a great favor in proper monitoring of the transport system present in the campus**.**

Plan of Action: The equipment required for vehicle tracking can be brought with collaboration with the Establishment Section and it is viable to actually incorporate them into the institute transport facility. The actual tracking part through an app would be looked upon by the Student Web Committee. So with proper collaboration with the Establishment Section and SWC, this ask can be achieved.

5) **Appointment of Finance Secretary for Every Board to specifically look into the financial matters of their respective boards.**

   Domain: Student Gymkhana

   Proposal: Appointment of a Finance Secretary with the consent of respective Board Chairmans.

   Possible Solution: The presence of an exclusive Finance Secretary for each board would bring about a lot of transparency in the activities organized by various boards.

   Plan of Action: The finance secretary who would be elected, would be through the process of an interview. The whole process must be supervised by the Chairman of the respective boards and the Vice President, Student Gymkhana Council.

6) **Making Minor Course Registration Online.**

   Domain: Academic Section

   Proposal: Making the Minor Course Registration process completely online for all the continuing Undergraduate Students.

   Possible Solution and Plan of Action: For eligible students there must be a facility to register for the Minor course at the time of Non-Backlog Registration which is done online. Incase a student fails to complete the minor course of the previous semester, he/she would automatically not be eligible to take the already registered minor course and by default, it would be assumed that the course is dropped.

FOLLOW-UPS:

1) I would ensure that the Maintenance Drive, which is to be held in hostels take place.

2) Strict follow up of the Food Review

3) Collaboration with Maintenance Section to construct ramps and to renovate the infrastructure in food courts.

Extra sheets may be attached if needed.the

Experiences (Credentials if any):

1) Chief Organizer, **Technothlon** 2018

2) Active member of **Youth Empowerment Club**

3) PR Branding Executive of **Udgam**,2017-18

4) City Representative of **Technothlon**,2016-17
